

Powerflow[™] HP

COMBI 310ml

A single component manual bead applicator for cartridges and sachets

Rotating aluminium barrel accommodates both cartridges and sachets.

Plated metal components to increase the resistance to part corrosion.

Strong tool with a lightweight design and high quality cast aluminum handle.

PRODUCT FEATURES:

- Rotating aluminium barrel which makes it easy to manoeuvre in tight spaces.
- Sintered metal alloy catchplate for high efficiency and trouble-free performance.
- Surface hardened rod to resist scoring by the sintered metal catchplate.
- Metal wear compensation sleeve which protects the catch plate contact area to increase tool life.
- Hardened rod release plate maintains high material output for the life of the tool.
- Curved rod end for convenient tool storage (optional)
- Superb build quality – these tools are designed with the professional in mind (high service life).

The **Cox Powerflow HP** is part of a range of high-powered manual applicators. Designed for use with medium to high viscosity sealants and adhesives, the Powerflow Combi HP is ideal for professional users.
